

BH200 Holder

FEATURES:

These holders, in conjunction with A74 fuse, are the effective solution to safely reference modules from reserve over current conditions. Rated for up to above 30Amps and 1500V DC, this holder, could supply a cost-effective solution to protect circuit overload.

DESCRIPTION:

The BH200 applies to 14x51mm fuse.

SPECIFICATIONS:

- Rated Voltage: 1500V DC
- Rated Current: 0~30A
- Breaking Capacity: 10kA@1500V DC
- Manufacturing Standards: IEC60269; GB13539; RoHS compliant
- Material Flammability: UL 94-V0 (PBT)/ UL91-V2 (PA6)
- Wire Range: 2.5mm² – 16mm²
- UL file: pending

DIMENSIONS: mm
